

# HOUSE OF HOLLOW

## KRYSTAL SUTHERLAND

*“Hollow by Grey Hollow, her eponymous scent, the one she stitched in little vials into her couture. For Christmas last year, she’d sent me a bottle of perfume that smelled like smoke and forest, with something wild and rotten scratching beneath it.”*

Create your own signature scent inspired by Grey Hollow’s ethereal perfume with these simple steps.

What you need:

- 1 x 5ml rollerball bottle (provided)
- 3 essential oils comprising head, heart and base notes
- 4 pipettes or glass droppers (1 for each oil and 1 for the carrier oil)
- Unscented carrier oil such as jojoba or almond

Choosing Your Essential Oils

All perfumes need a head, heart and base note. Here are a few of our favourite scents for different moods.

Dark & woody – cedarwood, labdanum, sandalwood

Musky – cedarwood, white rose, vetiver, myrrh, patchouli

Energising – bergamot, orange, lemon, grapefruit, lemongrass

Herbal – lavender, chamomile, rosemary

Floral – rose, iris, jasmine, magnolia, ylang ylang

How to:

1. Add each of your four oils to its own dropper.
2. Add 80 drops of the carrier oil into your rollerball bottle.
3. Add 10 drops of your base essential oil into the rollerball.
4. Add 5 drops of your head note and 5 of your heart note.
5. Shake gently and seal well!

We hope you enjoy your luxurious new creation!
